Dear Sir

### **Project Sea Dragon – Ranger Program**

Seafarms Group (**Seafarms**) is pleased to advise that it has agreed with the Northern Land Council (**NLC**) to bring forward the planning for the Ranger Program as part of the implementation of the Legune Indigenous Land Use Agreement.

Detailed planning for the Ranger Program will be led by the NLC and will define:

- the operating area;
- the scope of activities;
- appropriate governance arrangements;
- infrastructure needs, including locations;
- training needs; and
- the nature of the proposed workforce.

Project Sea Dragon has agreed to commence this work because the Native Title Holders and local Aboriginal people have considerable potential to contribute to the sustainable management of the Legune area.

Seafarms Dr Chris Mitchell said “Our conversations with Native Title Holders have revealed their enthusiasm for the Ranger Program and by bringing planning forward we can ensure far more effective implementation once construction starts.”

The NLC’s Chief Executive Officer, Marion Scrymgour, welcomes the agreement.

“The NLC has significant experience in assisting the Top End’s Aboriginal people to manage cultural, land, sea and natural resources in a sustainable manner,” said Ms Scrymgour.

“We currently support 12 ranger groups, several joint park management teams and traditional Aboriginal owners to manage more than 200,000 square kilometres of land and sea. Based on this experience, we are confident that Seafarms’ support for a Legume-based ranger group will result in long-term and meaningful cultural, environmental and employment opportunities for native title holders in the region,” she added.

Should you have any queries with respect to this announcement, please telephone Dr Chris Mitchell on (08) 8923 7900.

Yours faithfully
